

March 20, 2020

Cornerstone Building Brands is a leading manufacturer of exterior building products across North America. Our company manufactures and distributes essential building products and components for the building and construction industry. We supply critical products for commercial projects like hospitals and government buildings and home repair retail stores like The Home Depot and Lowes.

Because Cornerstone's products are needed to maintain continuity of operations for construction projects, including residential housing construction, hospitals and governmental buildings, Cornerstone Building Brands is exempt from the government mandated shutdowns and restrictions (<http://covid19.ca.gov/stay-home-except-for-essential-needs/>). Our drivers and manufacturing employees play a critical role in supplying essential product to approved locations.

During this COVID-19 crisis, safety is our #1 concern and we are taking significant preventative measures to keep our facilities and employees safe, including policies that allow non-essential employees to work from home and policies mandating that all employees stay home if they experience any symptoms of COVID-19 and the mandatory practice of social distancing and hygiene in accordance with all CDC guidelines to prevent the spread of COVID-19 when employees are working.

### OUR PORTFOLIO OF BRANDS
